

# National Summit

## for the Charitable and Nonprofit Sector

Strengthened connections.

Enhanced collaboration.

Collective Impact.

### Tips for Photography

We are excited to capture many photos from the Summit and your work will be a valuable part of that. We have an official photographer for the Summit (Lorne) but that shouldn't stop you from taking pictures.

All photographs should be provided to [Toni Stockston](#) in the Staff Room. She will be our point person for uploading all blog entries, pictures and videos to the dedicated National Summit site. Should you not have time to do this onsite, I would ask that you [email me](#) your blog pictures no later than the evening of the day you took pictures. We want to ensure that our social media efforts are timely and current, so appreciate getting your posts promptly.

Upon submission, all photographs will become the property of Imagine Canada and can be used for future purposes in marketing, communications and institutional usage.

Thank you!
